ABOUT ZELSA

Founded in 2015, Zelsa has successfully gained recognition for our innovative solution and outstanding customer satisfaction.

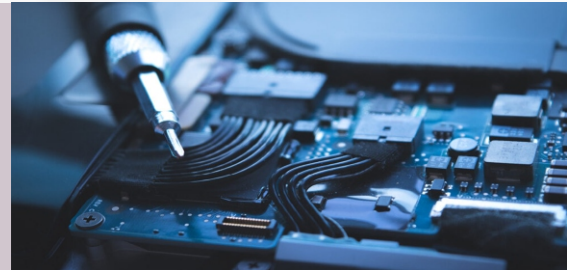

Our customers come to us when they want a single, reliable, and valuable source for their networking. As a leading hardware solution provider Zelsa is devoted to producing state-of-the-art solutions that support users in achieving their goals.

Our comprehensive solution includes Server & Network Management, Cyber Security Services, Hardware Sales and Integration Services, CCTV Camera installation & Maintenance, Computer rentals etc.

We take pride and ownership in what we do through our commitment for excellence in quality and customer support.

VISION

To be a top hardware and networking solution provider, recognized by our partners as a trusted source of reliable and dependable services

MISSION

To be a top hardware and networking solution provider, recognized by our partners as a trusted source of reliable and dependable services

VALUE SYSTEMS

Passion: We are passionate about our vision, our goals and our commitment to serve our employees and customers.

Integrity: We earn your trust through honest and ethical business practice.

Partnership: We commit to long-term mutual success with customers, employees and stakeholders.

Leadership: Our goal is always to be the leader in our targeted markets.

AMC (ANNUAL MAINTENANCE CONTRACT)

Zelsa Infotech provides AMC services for almost all types of computers, printers, storage devices, and IT networking equipment for small to large enterprises.

Our dedicated experts take care of all day-to-day operational and technical support, fixing errors and breakdowns as soon as issues arise.

We also provide backup devices when needed, ensuring uninterrupted services while your system is being repaired.

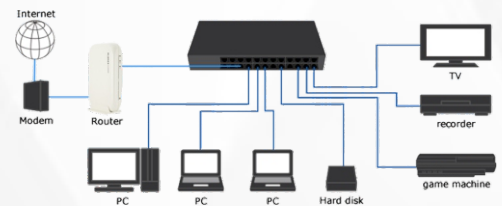

WE PROVIDE

Server & Network Management

Servers and networks are the skeletons of your IT. Having robust, reliable networks lead to more efficiency and uptime. To achieve that, what you need is a competent server and network management, and that's what our Server & Network Management service has to offer.

At Zelsa Infotech, our staff will professionally manage all aspects of network management for you, so that you can focus on taking your business to the next level

Staging & Development

Our unique store hardware deployments are managed end-to-end by a designated installation support services team.

Cyber Security Services

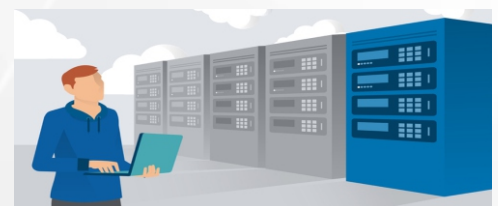

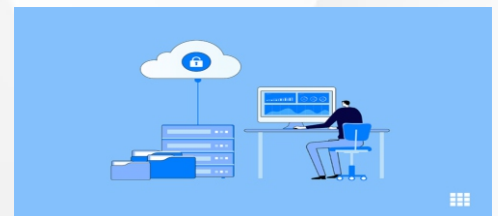

When it comes to cybersecurity, criminal tactics are constantly evolving. The Security landscape has changed dramatically over the past year, and no company - despite its Innovation, location or size - is immune

Trojans, Malware, Worms, Backdoors, Ransomware, File-less Memory-only Malware, Credentials Scraping and the Dark Web are some of the hacking buzzwords /types you may have heard of. They all have one thing in common: The goal of a hacker's JOB is to steal your information, and they treat it as such.

Just as cyber threats are constantly evolving, your concerns may grow and your company may have risks that change over time. Our services are available so that you are always up-to-date with the most cutting edge virus detection and protection solutions.
