We are / We do

Who we are -

Coming from various background from within the industry, we have come together to form a team for what we do, brought us together to lead the change in the manufacturing service industry through a strong network of suppliers, manufacturers and traders, we cover a wide range of product categories, capabilities, MOQs, and capacities. SOBHARA offers all services across product: - Designing - Sampling - Garment, Engineering, Product development Cost negotiations, Manufacturing Quality Vendor management

What we do -

Sourcing is a long process with multiple painful steps like find right suppliers, going through lengthy communication channels and at times without absolute visibility of the entire process. SOBHARA is here to change and simplify the entire process -we take you through design to finished product-we act as the connectors and do the match making with the right suppliers -our network of entire supply chain from raw material suppliers to apparel manufacturers -irrespective of product category , size & MOQ..

APPAREL
