# **COMPANY PROFILE**

**OF**

# **EXCEL CAM SOLUTIONS**

**BANGALORE, PEENYA**

**KARNATAKA**

## Company Profile:

EXCEL CAM SOLUTIONS is an engaged in the business of manufacturing for CNC Milling job works, Prototype developments Components & All kind of tooling works. Customized profile Components Company set in the industrial established in the year 2007. Industrial Area, Bangalore Karnataka, India, Own building in an area of site 3000 Sq Ft 3 floor working space of 6000 Sq Ft We combine traditional techniques with modern technology to ensure a lasting quality.

We are also engaged in offering Job Works such as CNC Turning Machine Job Works; all these are offered using quality approved materials, sourced from the reliable sources of the market. To meet the varied requirements of our patrons we make available all the job works as per their requirements. To ensure all the activities a team of expert observes all the production stages.

We approach every product as an opportunity to create something unique to Individual clients needs taste and budget. Thus by keeping alive a long tradition of unrivalled quality of Tooling & job works. We are specializing in the custom Toolings & Job works of Mild Steel, Stainless Steel, Hardened Steel up to 58Hrc, Tool Steel , Die Steel & Aluminum as per customer drawing and specification.. Our Quality Control inspects the quality of products at various stages of production and finally delivers the premium quality product to customer. This reputation has been earned by consistently exceeding the expectations of our customers with regard to manufacturing and product excellence supported by exceptional technical service

Our business mainly operations are led by **Mr. CHIKKAPUTTAIAH** *Engineering Technologist* who has with him rich 21+ dynamic years of strong domain well Experience in Manufacturing, Application & Customer support. Included like all type excellent problem solving techniques, excellent presentation skills, Technical Aptitude, Current business knowledge, Relationship building, Business Development & Feasibility studies for customer drawings.

## Quality Policy:

We at Excelcam solutions are committed to manufacture and supply precision machined components as per customer and applicable requirements to enhance customer satisfaction through improvements in quality management system through risk based thinking

## Envisioning Tomorrow and Future Plans:

Main focus is to add value to customer.

Expansions our Factory building

Ours is a Small scale Industry situated at the above cited address and is having well qualified staff and skilled supports workmen, Supervisor, with adviser who can take up the jobs as per Customer's requirement.

## Service Offered:

- CNC Precision Job Works
- All Kind Tooling Works
- Prototype developments Components
- Turnkey Project along with your machining cost, we'll reduce your worry
- Manufacturing Of Die Castings Tools, Injection Moulds,
- Jigs & Fixtures.

## Out Source:

Pre-machining, Turning, Grinding, Heat Treatment.

## Documentation:

Dimensional Inspection Report as Per Customer Specifications and Drawing
